ONSHORE TRANSMISSION LINE ENGINEERING

TOWANTIC ENERGY PROJECT - OWNER'S ENGINEER

OXFORD, CT | EVERSOURCE ENERGY

NV5 is providing Owner's Engineer services for the interconnection of the CPV Towantic Generation Station with Eversource's 115 kV transmission system in Oxford, Connecticut. To this end, our services have included:

- scope and work plan review
- scope of work development for design consultants
- preparation of technical descriptions and oversight of supporting drawings and documentation necessary for a Connecticut Siting Council Petition
- detailed review of the design package to ensure compliance with Eversource's published standards
- review of the final construction package.

VALUE OF CONSULTANT SERVICES: \$315,000

YEAR COMPLETED: 2020 (EST.)
