

Phone a Chemist Club

Do you need some expert assistance in preparing for your next audit or surveillance? Do you have questions regarding method updates, including the 2021 EPA Method Update Rule (MUR)? Do you need guidance in implementing the Method Detection Limit (MDL) requirements?

Let the experts at NV5/Dade Moeller help!

NV5/Dade Moeller has a team that brings together a combination of industry wide experts who understand laboratories from the laboratory floor to the accreditation management perspectives. Members of our team have operated instrumentation, developed Quality Management Systems, and supported significant programs and projects to improve analytical quality and consistency. This floor to corner office experience is unique because we understand the challenges laboratories have, and the issues they face. Our technical approach provides support that is impartial, complete, and unencumbered by conflicting agendas.

Our experienced team has completed more than 450 TNI assessments for multiple state accrediting bodies (ABs) and ISO 17025 ABs. Our assessors have worked together for more than 20 years on assessments nationwide and have over 250 cumulative years of experience working with commercial, state, and federal laboratories to gain and retain accreditation.

Team Areas of Expertise:

- NELAP/TNI (TNI Assessors to 7 states – LA, FL, KS, MN, OK, OR, and NH)
- ISO/IEC 17025, 17034, 17043
- Wastewater, Waste & Drinking Water Accreditation
- DoD/DOE Accreditation Programs
- Sampling
- Organic Chemistry
- Inorganic Chemistry (e.g., Metals & Wet Chemistry)
- Radiochemistry
- Microbiology (including Toxicology, Molecular Biology & Biobanking)
- ISO 13485 (Medical Devices)
- Food (SQF, FSMA & Micro)
- cGMPs (Pharma & Excipients)

Phone a Chemist Club Tiers:

All club memberships include a biannual newsletter with notable standard updates and interpretations along with having access to our experts.

Club membership options:

- Tier 1: \$299/year – Includes up to 2 hours of expert consulting
- Tier 2: \$599/year – Includes up to 4 hours of expert consulting
- Tier 3: \$899/year – Includes up to 6 hours of expert consulting
- Quality Support Packages – to be purchased in 4 hours increments (minimum of 4 hours). The hours can be used for things like SOP review, Corrective Action help, method help, assessment help, and more in-depth questions and answers.

How can you utilize our team of experts for your laboratory needs? **Join the Phone a Chemist Club!** As a member of the Phone a Chemist Club, you will have our group of experts and a wealth of knowledge and experience at your fingertips.
